DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or make obvious the claimed assembly or method of supporting a payload. The particular structure is not shown by the prior art and it is especially noted that the provision of an intercostals or beam "between a pair of the upwardly-facing engagement surfaces of adjacent engagement members" is considered to define over a situation where an intercostals or beam is located somewhere above or below such engagement surfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-21 are allowed.
